PROFESSIONAL EXPERIENCE

Software Developer
CodeIT Solution | 2022(February) - 2023(November)

- Created engaging user interfaces using front-end frameworks like Angular and React.
- Expanded my expertise to the back end, working with Java Spring Boot and Node.js.
- Contributed to numerous projects, ranging from e-commerce applications to HR solutions, and played a leadership role in some.
- Developed a peer-to-peer accommodation marketplace application using technologies such as React for the front-end and Node.Js for the back-end.
- Created SQL queries to query the database for the web applications.
- Developed and tested web services with RESTful API.

Software Developer
MegaSoft | 2021(July) - 2021(December)

- Developed a responsive and intuitive user interface using React, enhancing ease of navigation and overall user experience.
- Implemented robust and scalable server-side logic using Node.js. Integrated various APIs and ensured smooth database operation, contributing to the system's performance and reliability.
- Instrumental in streamlining workflows and improving efficiency across various departments through the development of this comprehensive system.

Intern Software Developer
ITgma | 2021(March) - 2021(June)

- Acquired knowledge of Angular
- Introduced to Agile software development
- Acquired skills in Vue.Js
- Learned Git version control
- Gained hands-on experience with Vue.Js through working on real projects
